

HOOD RIVER, a time to celebrate, enjoy and continue with the work.

Sunday, May 13, was a special day in my life, it was my 50th birthday.

Thank God for the blessings received, for my life, for work, for the opportunity to be here in the United States sharing, celebrating, working, but most importantly sharing the blessing of celebrating my birthday, doing what I like, talking about our people in the communities, of our projects, of our dreams.

Thanks to the brothers and sisters in Hood River for the warm welcome and the opportunity to share the work of Fedice, we continue the journey with joy, with hope, with faith. Thank you for the time, for the opportunity to speak in the churches, with the groups, with our brothers and sisters in this region. Thank you for your interest in visiting us, in working with us, you are always welcome, thank you for joining this great MINGA CON FEDICE. .

Thank you for the opportunity to share this special day in my life, this work day with a wonderful woman, Cathy Myers- Wirt, a woman I admire a lot, every time I have the opportunity to talk to her, to share, I learn something more, I feel blessed, proud to be a woman and to be sharing this MISSION to support people, to work to improve their conditions, to work as brothers and sisters in Christ.

Thanks for all the work that Cathy and her husband Doug Wirt are doing for Fedice, thank you for always receiving us with the same affection. Thank you because our relationship has grown every time you work with us in Ecuador and every time we have the opportunity to work and share time with you here in Oregon.

The journey continues, the sojourn continues and we are now preparing for the Regional Assembly of the Disciples of Christ in Oregon and SW Idaho. There we will once again announce the work of Fedice, we will surely meet friends, the friends we already know but we will also be blessed with the opportunity to continue here in this place inviting to the people to be part of this MINGA with FEDICE.
