

I am now writing about the activities in Fort Worth.

In the same way as with the other people, the joy of finding friends, the family in the United States and after completing our tasks, it is time to say goodbye so quickly. There is a mixture of feelings in our hearts.

Particularly, this family occupies a special place in my heart and in my life: Bill, Debby, Taylor, Robert and Allie Arnold. Approximately 11 years ago I came to the United States for the first time, unable to speak English, with the uncertainty of the unknown, and they received me with so much affection, with patience, with love, as A FAMILY.

“Blanca, someday I would like to visit Ecuador !”, I remember were the words of Bill. “Of course,” I said, “you are always welcome”. Time has passed since then, and after 4 trips to Ecuador, they have supported two communities Romerillos and San Francisco, and they continue to support Fedice.

The activities in Fort Worth were diverse: We had the opportunity to talk with some people about the experiences in Ecuador, above all we were able to present the results of the activities with the people in the communities and, of course, to plan activities for the future..

At the school with Debby we also had the opportunity to talk about Fedice and and, above all, to talk about our beloved country.

In addition is It was an occasion to meet people who are interested in doing volunteer work, like our friend Jan Younger and her daughter; and the parents of Jacob Rains. All help is welcome, as I always say. May God allow us to work together and may you then become ambassadors for Fedice.

As we have mentioned before, we continue to plant the seeds of FAITH and HOPE for Fedice.

Thank you, dear friends of Fort Worth. Thank you for showing us that with the passage of time, your love and solidarity are still intact, that we have your support for Fedice, we hope to see you in Ecuador.

May God continue to bless your path, your lives and May God allow us to meet soon.
